

ACEMAPP is a collaborative platform for health care education, recruitment, and professional development utilized by partners nationwide.

## Collaboration Made Simple

ACEMAPP Collaboration provides the opportunity for schools and clinical sites to avoid duplication of work while creating a collaborative space for the clinical education process.

The unique benefits of this program allow academic programs and clinical facilities to streamline an often complex process. Members receive email alerts and track changes to clinical rotations and rosters in real time from any browser, 24/7. Our key features, as seen on the right, are available with standard membership and customizable to your organization's needs.

## Pricing

### Schools and Clinical Sites

**See Below**

ACEMAPP can be used by any program within a school and any size clinical site. Schools may share a single subscription across all programs. The number of students determines annual membership fee.

<5 students: Free (Guest School)

5 - 24 students: \$200

25 - 49 students: \$600

50+ students: \$1,000

### Students

**\$50/year**

Students across all programs are eligible to attend unlimited rotations across unlimited sites during their membership. Member schools have the option to be invoiced for enrollments or have all students pay directly.

### Faculty

**Free**

ACEMAPP can be used to manage clinical faculty's schedule, compliance and feedback.

### Graduated Students

**Free**

Graduated students have access to all previously uploaded requirement documents as well as job postings, rotation history, evaluation results, and their shareable ePortfolio.

## Implementation

The ACEMAPP Collaboration team will work with you and your organization every step of the way; from implementation planning and communications, to ongoing support for your team, partners, students, and faculty.

ACEMAPP supports members by providing high-quality training opportunities, support videos and user guides. ACEMAPP also contains an in-depth help desk and internal ticketing system which allows users get the answers they need, quickly. To learn more or schedule a demo, contact us:
